

WEBINAR

EMTALA Made Simple

Clinical Quality Insights

<https://www.greeley.com/insights/emtala-made-simple>

Over the past decade, more than a quarter of US hospitals faced the threat of Medicare termination due to EMTALA citations. Each violation carries potential fines of more than \$100,000 and far larger civil judgements brought by injured parties.

This webinar features real-world case studies and practical approaches for how healthcare leaders can address the challenges presented by EMTALA and related regulatory and accreditation requirements. Key learning points included:

- Develop strategies to meet the challenges that came to light during the pandemic, including staffing shortages and the increase of patient psychiatric conditions
- Identify successful approaches for coping with long waits for emergency department care and the challenges associated with boarded inpatients
- Clarify what it means to stabilize the patient or resolve an emergency medical condition
- Recognize the important differences between lateral and higher-level-of-care transfers

PANELISTS

- Jesse Neil, Partner, Waller Lansden Dortch & Davis, LLP
- Lisa Eddy, Vice President, Clinical Compliance and High Reliability, Chartis Clinical Quality Solutions
- Bud Pate, Vice President, Content and Learning, Chartis Clinical Quality Solutions
